

**New Break Announces Start of Trading on CSE Under Symbol (CSE: NBRK)
on Wednesday, September 7, 2022**

Toronto, Ontario, September 6, 2022 – New Break Resources Ltd. (“**New Break**” or the “**Company**”) is pleased to announce that the Company’s common shares (“**Common Shares**”) have received final approval for listing from the Canadian Securities Exchange (the “**CSE**”). The Common Shares are expected to commence trading on the CSE under the trading symbol “**NBRK**” at market open on Wednesday, September 7, 2022. New Break will also be featured on the CSE’s YouTube channel, CSE TV, as the Company rings the bell as part of a virtual open, including an interview with Michael Farrant, New Break’s President and CEO. The video will be available on the Company’s website at www.newbreakresources.ca.

The ISIN and CUSIP numbers for the Common Shares are CA6425831089 and 642583108, respectively. New Break currently has 40,155,750 Common Shares issued and outstanding. Of the 4,348,000 Common Shares owned by management and directors, 10% will be released from escrow in connection with the commencement of trading, while 3,913,200 will remain in escrow, with batches of 652,200 released every six months over a period of three years.

Michael Farrant, President and CEO of New Break commented, “Successfully completing a listing of New Break’s common shares on the CSE is a significant milestone and comes just under two years after acquiring our Moray property south of Timmins, Ontario and 32 km northwest of the Young-Davidson gold mine operated by Alamos Gold Inc. Over that period of time, we’ve also added an extremely exciting package of mineral properties in Kivalliq Region, Nunavut, including signing an Inuit Owned Lands Mineral Exploration Agreement on the Sundog gold project and staking the highly prospective gold mineralized Esker claim, just east of South Henik Lake, historically drilled by Comaplex Minerals Corp. As a private company, we assembled over 190 shareholders, raised sufficient capital to allow us to complete a non-offering prospectus, attracted an extremely talented team of mining professionals that makes up our management, board of directors and advisory group and were awarded a grant of up to \$200,000 under the Ontario Junior Exploration Program. While having our shares trade publicly gives our shareholders liquidity and allows the Company greater access to capital, it does not change the already high standards at which we operate in terms of corporate, social and environmental responsibility and good governance. We will continue to advance our mineral property interests giving the highest regard to all of our stakeholders, including our shareholders and the communities in which we operate. I hope that all of our shareholders are proud of the Company we’ve built to date and continue to support us on the path to discovery.”

About New Break Resources Ltd.

New Break is a Canadian mineral exploration and development company with a dual vision for value creation. In northern Ontario, New Break is focused on its Moray Project, in a well-established mining camp, within proximity to existing infrastructure, while at the same time, through our prospective land holdings in Nunavut, we provide our shareholders with significant exposure to the vast potential for exploration success in one of the most up and coming regions in Canada for gold exploration and production. These complimentary visions are supported by a highly experienced team of mining professionals committed to placing a premium on Environmental, Social and Corporate Governance, respecting the values and interests of all our stakeholders. Information on New Break is available under the Company’s profile on SEDAR at www.sedar.com and on the Company’s website at www.newbreakresources.ca.
